

Technical Rider

"The Dragons of the Sea"

Technical Rider Show

- Music system: For our play we need 2 speakers, an amplifiers and a mixer that can be operated with a laptop or Mp3. Active speakers are welcome.
- If that is not possible, we have active Speakers and all the necessary technique for the theatrical performance.
By international air travels, take into account the high costs of transporting the musical equipment
- Puppet assembly (in a place protected from wind) about 3 hours
- Play area construction (stage design and tecnic) approx. 3 hours (it would be optimal to be on site one day earlier).
- Conversion time between shows: 30 min.
- Dismantling: about 3 hours
- Playing time: 30 min. or 45 min.
- Play area: at least 10 Mts wide x 6 Mts. Low x 4 Mts high.
- We need a protected place to store our Puppet and theater props

Technical Rider Walking Act

- Puppet assembly (in a place sheltered from wind) about 3 hours
- Dismantling: about 2 hours
- Playing time: 30 min
- We need a protected place to store our doll and theater props.
